## Our core values make us unique

Always be proactive

Deliver more than expected

Do what you say and say what you do

Communicate, collaborate and cooperate

Continuously add value

“ I have been completely blown away with every aspect of SharpQuest’s work.”

**Jeff Collision,**  
Founder & CEO, Kibage

“ SharpQuest is very good at reacting to changes and implementing them in a way that is effective for our business.”

**Irv Shiffman,**  
Manager of IS, TKS Industrial

“ We couldn’t be more pleased with the value they are bringing to the table.”

**Ian Costello,**  
Product Consultant, Clarus

## We offer flexible ways to engage with us

### Contribute project expertise

We can address small issues or tackle part of a larger project using a fixed-price or milestone-based agreement

### Build and end-to-end solution

We can build an entire solution from the ground up and transparently track resources under a time and materials agreement.

### Modernize and maintain technology

We can update critical custom technology and keep it running under an ongoing maintenance agreement.

### Fill technology skills gaps

We can augment your staff with access to our personnel on or offsite as needed creating a flexible staffing agreement.
